

**Amendments to the Disclosure**

Please replace paragraph [0021] with the following amended paragraph:

**[0001]** Where the bedding comprises a blanket or a bedspread, sanitization may be facilitated by moving a narrow band radiation source (for example an ultraviolet light) along opposite sides of the blanket or bedspread at a stand-off from the blanket or bedspread. This may be accomplished by draping the blanket or bedspread over a support prior to exposing the bedding to narrow band radiation. ~~In such instance, a narrow band radiation source may be moved under the support.~~

**Amendments to the Drawings**

Applicant requests permission to replace the nine figures currently on file with the nine figures enclosed herewith.
